

*European*

## **SCHOOL PSYCHOLOGY CENTRE FOR TRAINING**

*Affiliated with the International School Psychology Association (ISPA)*

### ***Crisis Management in Schools (CMiS)***

#### ***ESPCT Basic Course, Hovborg, Denmark, 1 to 5 April 2019***

The *European School Psychology Centre for Training* (ESPCT) has more than 15 years of experience in training professionals in schools and dealing with crisis events. ESPCT provides trainings, resources, and a community to school psychologists in the field of “Crisis Management in Schools” in touch with the world-wide development in this field. All trainees are in the database of the ESPCT and keep in touch. They might offer assistance in national training efforts and support in big tragic events at schools. Severe incidents, especially the immigration crisis in recent time, affecting schools usually cause public interest and open a discussion about what is needed at schools. Prevention programs are taken into consideration and strategies for safer and more supportive schools. For more information, visit [www.espct.eu](http://www.espct.eu).

ESPCT is proud to have been given the opportunity to organize this course in Tokyo for ISPA colleagues around the world.
